

CLT-353R/L Camera Link Translators

The CLT-353R and CLT-353L Camera Link Translators convert Camera Link to RS-422 & LVDS, enabling the use of Camera Link cameras with frame grabbers and imaging systems incorporating traditional RS-422 and LVDS parallel digital interfaces. The “R” and “L” versions support RS-422 and LVDS interfaces, respectively.

These flexible adapters feature an RS-232 port for camera communication and are very useful for replacing obsolete RS-422 & LVDS cameras in existing imaging systems.

The CLT-353R/L converters are housed in sturdy, compact aluminum enclosures.
